Founder - Pyramid Spiritual Societies Movement, India

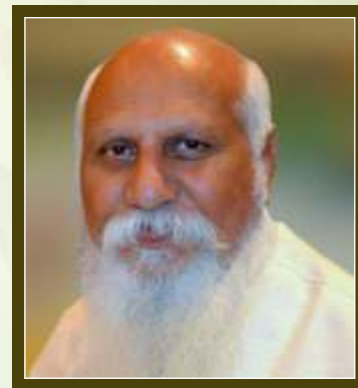

"PYRAMID" ... a great symbol of Stability
"PYRAMID" ... the great symbol for Secularism
"PYRAMID" ... the great symbol for Spiritual Science
"PYRAMID" ... the great symbol for Scientific Temper
"PYRAMID" ... the great symbol for Meditation
"PYRAMID" ... the great symbol for the New Age

"PYRAMID" ... the great symbol for North, East, West and South... for all differing view-points converging into ... ONE

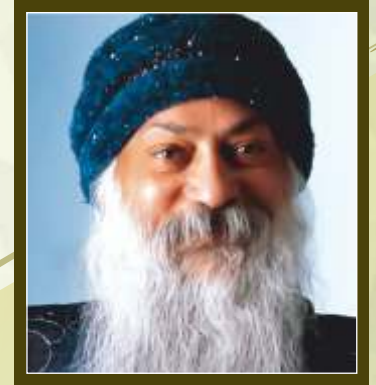

"PYRAMID" ... the great common energy signature ... connecting all Galactic Civilizations

Pyramids are great Energy Support Systems for all Beings
Pyramid Spiritual Societies Movement ... "PSSM" ... is dedicated to construct PYRAMIDS everywhere.

Hail unto ... Pyramids
Hail unto ... Pyramid Energy
Hail unto ... Pyramid Meditation

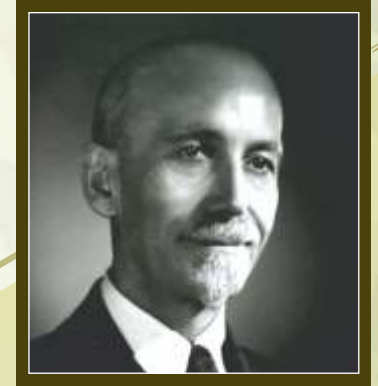

- "The meaning of Pyramid is 'fire within'. If anybody does a systematic study about their own 'inner-fire', a type of light ray emanates out of their bodies."
- "The shape of the Pyramid itself will give you a divine feeling. One can experience new thoughts which may not be possible outside. The truth is that pyramids were especially constructed for spiritual purposes; they were places where spiritual sadhana could be carried on with great ease and advantage."
- "If you sit in any structure in the shape of a pyramid, you will fall into deep silence and meditation without difficulty."
- "Meditation... easier in Pyramids! This is 'a great mystery'; if you want to go much deeper in meditation, it is quite easy in a Pyramid."
- "The possibility is that if pyramids are used widely, man's life can be prolonged."

- "I slowly 'sensed' that the King's Chamber possessed a very strong atmosphere of its own, an atmosphere which I can only call 'psychic'."
- "Came a murmur from the High Priest :

'My son! it matters not whether you discover the door or not. Find out the secret passage within the mind that will lead thee to the hidden chamber within your own soul, and you shall have found something worthy indeed. The mystery of the Great Pyramid is the mystery of your own self. The secret chambers and ancient records are all contained in your own nature! The lesson of the Pyramid is that man must turn inward, must venture to the unknown centre of his being to find his SOUL, even as he must venture to the unknown depths of this fame to find its profoundest secret'."

BILL SCHUL & ED PETTIT, U.S.A

- "The fact that a geometric design collects and radiates energy was known to Ancient Egyptians, more than 10,000 years ago. They utilized the concept when they built their pyramids."
- "Meditation done inside a pyramid is thrice more powerful!"
- "Most people who have experimented with Pyramid Meditation, describe themselves as experiencing a total relaxation of their body, followed by the shutting out of unnecessary external stimuli and irrelevant thoughts and finally achieving an altered state of consciousness which allows them to concentrate on deeper inner levels."
- "Pyramids provide most effective high-energy environments for beginners of meditation. Pyramids help to reduce the level of stress and tension in the physical body."

DR. G. PATRICK FLANAGAN, U.S.A

- "The vortex energy from the peak of a Pyramid is undiminished by distance above the apex."
- "There is an interrelationship or similarity of energies that have been called chi, prana, kundalini, life force, auras, biofields, morphogenetic fields, orgone, scalar waves, torsion waves, longitudinal waves, zero point energy, tachyon energy, biophoton energy, mitogenic rays, etc."
- "The energy is present throughout the pyramid. The maximum concentration of effect is in the King's Chamber but there are effects in the other areas of the whole pyramid. Other geometric structures such as cones, icosahedrons, dodecahedrons, tetrahedrons, octahedrons, etc., do not have any effects demonstrated as by the exact pyramid shape."

- ☉ "The Great Pyramid of Gizeh is a precise mathematical structure based on the mathematical ratio of PHI (f). PHI is also known as SACRED CUT. This magic ratio was used in the Renaissance by all the great Masters. The body of man is divided by this ratio. These proportions occur throughout Nature, and is the governing ratio in the Pyramid."
- ☉ "The shaped electrostatic field formed due to the structure of the pyramid, and the action of the earth's magnetic field on the resultant shaped ether flow. The result of these effects would be the formation of a rather large vortex in the pyramid. The ether vortex casts some interesting probabilities on possible interplanetary travel."

RUSSIAN ACADEMY OF SCIENTISTS, RUSSIA

- "Agricultural seeds placed within a pyramid had increased yields of 30-100% only after being within the pyramid's energetic field for 3 to 5 days."
- "Oil from an area in Southern Russia called 'Bashkiria' turned 30 % less viscose (lighter), which means it was easier to extract and oil well yields increased. This was confirmed by the Moscow Academy of Oil and Gas."
- "Wounds healed faster in the presence of a pyramid. Leukocytes in the blood were increased."
- "The immune system in numerous biological organisms was greatly improved."
- "Newborns given solutions made from charged pyramid energy experienced greater health."
- "Over 5000 inmates subjected to an experiment in Russian prisons were less violent and overcame decades' long drug and alcohol addictions. The only change was that salt and pepper which had been inside a pyramid was added to their food."

- "Ordinary water did not freeze even at -40° and was able to retain its perfect structure for years."
- "Meditators who spend time inside a pyramid are said to have a profound activation of their pineal glands, and thus expedite ascension."
- "A properly constructed pyramid could likely also provide free energy, heal a number of diseases, and repair the etheric bodies of so many of us on this planet that have been attacked by 'dark side' forces."

SHEILA OSTRANDER & LYNN SCHROEDER, EUROPE

- "For some five thousand years, people have been speculating on the meaning of the Great Pyramid of Egypt ... one of the Seven Wonders of the World and one of the strangest works of architecture in existence."
- "The energy accumulating in the pyramid might be the basis of the effect the pyramid had on physical, chemical and biological processes."
- "Pyramids act as resonators for the energy of the cosmos, the sun, and the energy all around us."
- "Whatever this strange energy associated with the form of a pyramid is, it baffles modern scientists and throws into utter confusion the readings of modern electronic equipment."
- "In July of 1969, Dr. Amr Gohed, in charge of the installations at the pyramid, made a startling report to the "Times of London". The scientists had reached an impasse. Whatever was happening in the pyramid, said Dr. Gohed, 'defies all the known laws of science and electronics'."

DOLORES CANNON, U.S.A

- "Pyramid structures were built with the aid of levitation, which is being rediscovered in some areas on Earth today. The act of moving these stones was accomplished with pure mental energy. It requires total focus and concentration."
- "THOUGHT is the fastest laser known. Each block is a thought. So, a thought can be the foundation. One block at a time is one thought at a time."
- "The mystery of the Earth and the creation of the Earth is in the Great Pyramid. It is a storehouse for knowledge, of all that the Earth is."
- "The pyramids are full of human energy, more so than any other object or device currently on Earth."
- "When one enters into these pyramids, they enter into this field of concentrated human energy. They are immersed and bathed in the energy that is part of the personalities of those who charged these stones."

[Source: "The Convolved Universe" by Dolores Cannon]

ELISABETH HAICH, HUNGARY

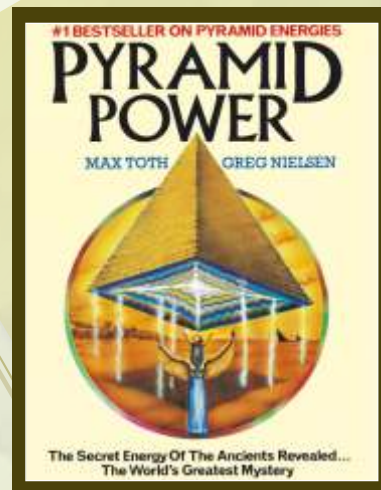

- "The Pyramid is the symbolic form of the God-man, who reveals his divine, self-less nature and completely manifests GOD on Earth."
- "The salvation of the Earth, the spiritualization of matter is completed in the person of the God-man. The divine self .. the creator .. is seated in complete majesty on its throne and rules over matter, over the body."
- "The Pyramids will continue to stand for thousands of years, proclaiming to humanity the highest truths which have been built into them."
- "People with eyes and ears will find and recognize these elements of truth, even though they may not be able to fathom all the mathematical and astronomical laws of the Pyramids, and some highly developed persons will even be able to attain the truth proclaimed."
- "On the other hand, for primitive minds, the Pyramid will always be a puzzle .. just like the Sphinx .. until they reach the point of being able to solve their own puzzle."

MAX TOTH AND GREG NIELSEN, U.S.A

12

- "It has been conclusively proved that psychic powers are stimulated or heightened by the use of pyramids for meditation purposes."
- "Where Pyramids have been constructed, meditation within them enables the individuals to harness cosmic energy in abundance."
- "Many people who have meditated in Pyramids have reported heightened charge of psychic energy, increased memory recall, views of past incarnations, visions, symbols and music."
- "There are also reports of experiences of precognition, interplanetary travel, telepathic communications, answers to questions and overall revitalization of the entire being."

WYNN FREE WITH DAVID WILCOCK, U.S.A

- "The science of torsion fields goes well beyond an explanation of extra-sensory perception. For example, the Earth is always sending and receiving 'torsion fields', as does any physical object by virtue of its 'breathing'. However, the fields from the Earth, the Sun, or the center of the galaxy are a lot stronger than from any smaller object, due to the sizes involved. The easiest low-tech way to harness these energy fields is to build a pyramid or other cone-shaped structure."
- "Pyramid-charged foods can make people more loving."
- "Standard solutions such as glucose and iso-osmotic solution become effective for treating alcoholism and drug addiction after being placed in the pyramid. They can be administered either intravenously or outwardly."
- "The atmosphere surrounding the pyramid seems to be shielded from severe weather as well, causing an overall decrease in the amount of violent weather patterns, which are deflected around the area where the pyramid is located."

- "A series of pyramids was built over one of a number of oil wells. It was discovered that the viscosity of the oil under the pyramids decreased by 30%, while the production rate accordingly increased by 30% compared to the surrounding wells."
- "Plastic bottles of distilled water were kept in the pyramid during three winter months where the air temperature sank as low as -38°C or -6°F . Thermometers inside the bottles revealed that the temperature of the water was equal to the air temperature, but the water remained in a liquid form and would not turn into ice."
- "Prof. S.M. Kilmenko and D.N. Nosik, M.D., from the Ivanovskii R & D Institute of Virology within the Russian Academy of Medical Science, conducted a study involving the drug venoglobulin, which is a naturally occurring virus-fighting compound in human beings. When the drug was diluted into a concentration of 50 micrograms per milliliter and stored in the pyramid for a time, it became approximately three times more effective at fighting viruses."

- “Pyramid Power’ refers to supernatural or paranormal properties of the shape of a pyramid and the ancient Egyptian pyramids. With this power, model pyramids are said to preserve food, sharpen or maintain the sharpness of steel, improve health, function as a thought-form incubator, trigger sexual urges and cause other dramatic effects.”
- “It is said that people enter the Alpha State of Consciousness faster and easier when in or under, a pyramid. A pyramid pours positive energy. It washes the negative energy away and draws down the powers of the heaven.”
- “Another contention of pyramid power is ‘scalar resonance’ caused by the geometric shape of the pyramid, also related to ‘shape energy’. Electromagnetic frequencies are converted by the direct influence of the perfect pyramid shape causing them to harmonize the energy.”

JULIAN WEBSDALE, ENGLAND

- “A pyramid aids meditation because it focuses harmonious energy while deflecting distracting energies. People meditating in a pyramid regularly have received strong spiritual and psychic impressions, as well as enhanced dreams and visions, vivid visual imagery, and increased memory recall.”
- “Pyramids have also been found to :
 - ◆ Restore luster to tarnished jewelry and coins
 - ◆ Purify water
 - ◆ Keep milk fresh and prevent souring without refrigeration
 - ◆ Dehydrate flowers without losing their form or color
 - ◆ Increase the growth rate of plants
 - ◆ Help to attain increased relaxation
 - ◆ Improve the taste of coffee, wine and certain fruit juices
 - ◆ Promote healing of cuts, bruises and burns
 - ◆ Reduces pain from toothaches and headaches”

DR. SAM SEMIR OSMANAGICH, BOSNIA

- "Discovery of the Bosnian Valley of the Pyramids is telling us that we don't know our Planet. We still need to explore our Mother Earth. More secrets to be uncovered and ancient knowledge, helps us reach our balance back."
- "The Bosnian Valley of the Pyramids consists of five pyramids discovered to date which I named: The Bosnian Pyramids of the 'Sun'...'Moon'...'Dragon'...'Mother Earth' and 'Love'. The site also includes a tumulus complex and a huge underground labyrinth. These are the first pyramids discovered in Europe."
- "The site includes the largest pyramid structure in the world ... 'The Bosnian Pyramid of the Sun'... with its height of over 220 meters is much higher than the Great Pyramid of Egypt (147meters)."
- "Research so far concludes that the pyramids are radiating energy. Energetic radiation is a wave and the waves are information (for example : magnetic, electromagnetic, infra and ultra waves)."

Bosnian Pyramid of the Sun Foundation. via David Icke.com, January 24, 2012]

- "It is a fact that properly constructed Pyramid replicas (based upon the measurements of the Great Pyramid) enhance meditation inside the form. Models repeatedly produce preservation in organic matter and induce accelerated growth in plants. Replicas also improve the flavor of charged foods and liquids and sharpen or polish dull metals."
- "Preliminary research done inside the pyramid shows that one's brain waves may be altered in favorable ways. Early experiments with test subjects connected to an electroencephalograph (EEG) show signs of increased Alpha and Theta brainwave production, higher frequencies and greater amplitudes. Alpha and Theta brain waves appear to increase with higher amplitudes, when one is in a meditative, intuitional creative state of mind."
- "A cardboard replica of pyramid may even sharpen knives, scissors, razor blades and surprisingly, even electric shavers. Correct exposure time depends upon many factors. But, if the test is set up properly, noticeable results have been reported after over-night pyramid exposure. Electric razors and heavy duty cutlery may require two days or more."
- "Small pyramids aligned under one's bed may produce a more tranquilizing effect."

- "The Great Pyramid was a geo-mechanical power plant that responded sympathetically with the earth's vibrations and converted that energy into electricity!"
- "The inner chambers of the Great Pyramid have been generating electrical energy since their construction 46 centuries ago. A man within the King's Chamber would thus come in contact with a weak but definite induction field."
- "The granite complex inside the Great Pyramid, therefore, is poised ready to convert vibrations from the earth into electricity."
- "According to Boris Said, who was with Tom Danley when he conducted his tests, the King's Chamber resonated at a fundamental frequency and the entire structure of the King's Chamber reinforced this frequency by producing dominant frequencies that created an F sharp chord using large amplifiers. F sharp is the frequency that is in harmony with the earth. Said claimed, that the Indian Shamans tuned their ceremonial flutes to F sharp because it is a frequency that is sacred to mother earth."

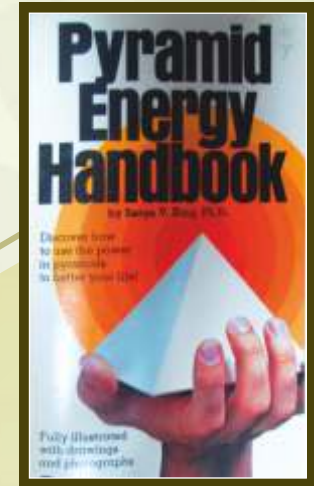

- ❶ "As the earth's vibration flowed through the Great Pyramid, the resonators converted the energy to airborne sound. By design, the angles and surfaces of the walls and ceiling of the Grand Gallery, caused reflection of the sound and its focus into the King's Chamber."
- ❷ "The Great Pyramid can be seen as a huge musical instrument with each element designed to enhance the performance of the other."

[Source: "The Mighty Crystal from The Giza Power Plant" by Christopher Dunn]

- "Water is not 'purified' under a pyramid, as the claims say, however it is chemically altered. Water is a polar molecule. The hydrogen bond is what allows this change to occur. The orgone energy produced by the pyramid polarizes, lines up, or somehow alters the hydrogen bond. This alters not only the taste of the water but some of its chemical properties as well. Water that is 'charged' with pyramid/orgone energy can pass on the energy to other things. Watering plants with pyramid water will help them grow better."
- "Pyramid Energy will loosen tarnish off coins and jewellery. Leave the object under the pyramid for several days first. Then the tarnish will rub off very easily. This is likely due to the microwave-dehydration breaking the tarnish's hold loose."
- "Pyramid Energy puts the mind into a alpha-theta state which is one of relaxation and puts the mind in a creative mood when you are awake."

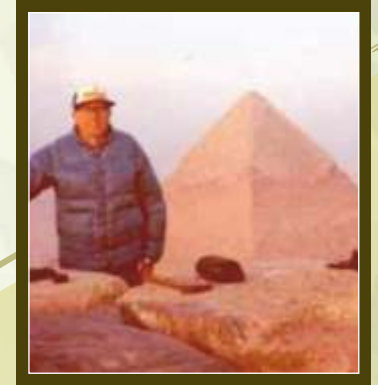

- ☉ “Milk will stay fresh longer under a pyramid without refrigeration. This is because the micro organisms that make the milk spoil cannot withstand the orgone energy, they don't like it.”
- ☉ “Sleeping under pyramid can have several benefits. Less sleep is needed. Also you will have vivid lucid dreams. Because mirco-organism don't like orgone you should get sick less. Some people meditate under a pyramid. Animals quiet down under pyramids as well.”

- "The pyramid shape has the potential to trap theoretical particles known as mass particles. Mass particles exhibit some properties of matter, such as inertia, but are not subject to quantum laws. When a pyramid traps mass particles, a bubble forms around the pyramid. This bubble is some kind of energy field that forms a shield to protect the mass particles. The reason why the pyramid captures mass particles is unknown, but we can measure this field and verify its existence."
- "The Pyramids Energy Field or bubble is ultra sensitive to the sun's 11-year sunspot cycle. It appears that this field is strengthened by neutrino particles given off by the sun, which vary with the 11-year cycle."
- "Astronomers in 1979 discovered an X-ray emitter source at the center of our galaxy. No one knows what it is or why it is there. Joe's energy bubble is dependent on this X-ray emitter source. For example when the X-ray emitter stops, as it does at times, the energy bubble around the pyramid disappears. This X-ray emitter source, called the 'Great Annihilator', was discovered by astronomers in 1979, and is another variable in the pyramid experiments of Joe Parr."

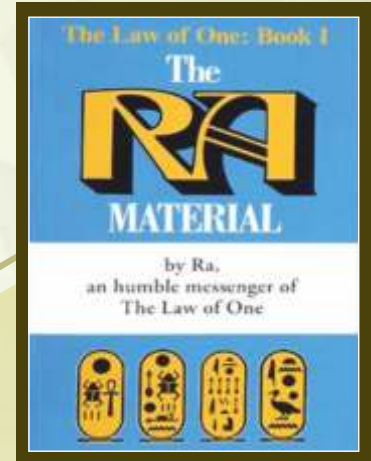

- ☉ "Joe has discovered that, this bubble or energy field can also be energized and turned off and on with sound. It is very interesting that Joe Parr has recently discovered the frequency to be 51.5 cycles per second (Hz), and the slope of the Great Pyramid which is almost exactly 51.5 degrees. Thus the slope of the Great Pyramid equals the resonant frequency of the force field."

CARLA RUECKERT, DON ELKINS AND JIM MCCARTY, U.S.A

- "The larger pyramids were built by our ability using the forces of One. The stones are alive. It has not been so understood by the mind/body/spirit distortions of your culture."
- "Pyramids are a properly oriented place of initiation for those who wished to become purified or initiated channels for the Law of One."
- "Pyramid after pyramid charged by the crystal and initiate were designed to balance the incoming energy of the One Creation with the many and multiple distortions of the planetary mind/body/spirit."
- "The vibration offered by the energizing spiral of the pyramid is such that each cell, both in space/time and in time/space, is charged as if hooked to your electricity. The keenness of mind, the physical and sexual energy of body, and the attunement of will of spirit are all touched by this energizing influence."
- "The material used for pyramid construction is not critical, merely the ratios of time/space complexes. However, the use of the structure for initiation and healing depends completely upon the inner disciplines of the channels attempting such work."

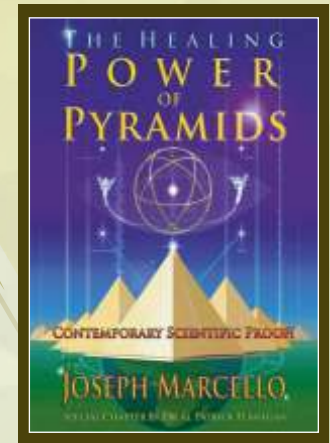

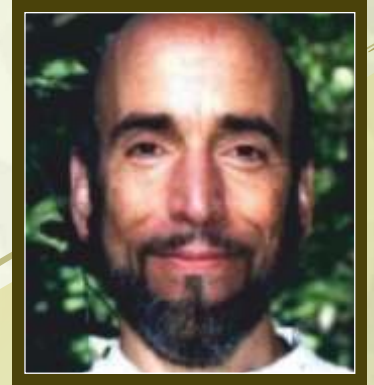

- “The balancing pyramidal structures were charged with crystals which drew the appropriate balance from the energy forces streaming into the various geometrical centers of electromagnetic energy which surround and shape the planetary sphere.”

JOSEPH MARCELLO, U.S.A.

- "The pyramid is the secret essence of Knowledge, in which you will discover the Great Truth, the right proportions and the rule of moderation. The Pyramid stands proud, filled with silence and meaning."
- "The golden ratio or Fibonacci series of numbers is the key to Universal Harmony and the secrets of life."
- "The universe is always giving both from within, as life, breath and consciousness - and from without, as light, energy and substance; but are we in receiving-mode or in shut-down mode?"
- "Pyramid power is a verifiable scientific reality; pyramids actually do 'work' and produce palpable and measurable effects upon people and organic structures."
- "There is also evidence that pyramid power induces the emergence of springs and streams from within the earth; pyramid have also been shown to repair gaps in the earth's ozone layer."

- ☉ “The time for pyramids has come: pyramids as healing modules, environmental resources, spiritual tools, nutritional and potentiators for everything from foods to water supplements – all coming to us as a free energy system.”
- ☉ “There is the property of the structure to act as a wave guide to capture, focus and transduce cosmic energy of the electromagnetic spectrum (energy originating from outside the earth system). A structure such as a pyramid chamber acts a resonator to collect energy and focus this energy.”
- ☉ “Pyramids meet humanity’s needs for the New Era. By interacting with pyramids we can penetrate the mystery of the universe, access inner wisdom and naturally activate the Merkaba – or ‘Vehicle of Ascension’. This opens us to the transcendent possibilities of the Spirit.”
- ☉ “Pyramids as an invaluable aid in our troubled times. Once within these structures we feel as if they have taken a refreshing shower after a tiring journey in the heat and dust. Pyramid energy cannot overdose us!”

BUDDHA MAITREYA THE CHRIST, U.S.A

- "When we meditate in the Pyramid it aligns the reality of Earth, the energy of the vibration of Earth in all of its sacredness, its merit, its goodness, its place with God, with Masters of Wisdom and Saints who have incarnated and evolved. Just like in a great Temple, it slowly brings out that geometric proportion and increases your Soulful receptivity, and with it the realization that God exists."
- "The 51 degree pyramid is a temple whose sacred proportions relate to both the human form and the sacred geomancy of the Earth and its relationship to the Moon, Sun and Cosmos."
- "The 51 degree pyramid represents the Word of God and Evolution - prana, vitality made manifest into form. The applied geomancy of the truth of awakening: 'The Pyramid is a very divine, sacred geometric design. As a human being, even as a tree or a flower, everything is based upon this design. It's the nature of God'."
- "Practicing meditation in the Pyramid improves telepathic communication, and improves all other aspects of personal life. Meditating in a pyramid aligns one and the reality of Earth to a proper relationship with God and nature."

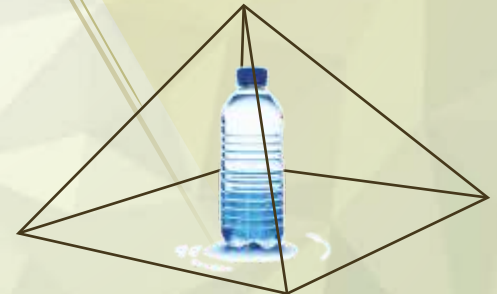

- ☉ "Meditation in the Pyramid naturally balances and aligns the chakras and meridians. Used on a daily basis for meditation and healing as well as for sleeping in, it helps to protect from astral influences or energies, de-crystallize negative patterns or habits and truly heal mind, body and emotions."

JUANITA HALL, AUSTRALIA

- "Water has a certain crystalline structure, which largely defines its properties and qualities. Pyramid water is water, which changes its structure under the influence of pyramid energy."
- "Working on principle of bio-resonance on a subtle energy level (similar to homeopathy), when taken either internally or externally, pyramid water harmonizes (regulates) all the processes in our organism."
- "Water is the best conductor for every frequency; water can receive information, store it, communicate and transfer it to another water. After you drink the energized pyramid water, the energy-informational particles will spread all over your body and tune your morphological field into emitting the intention you gave it."
- "Pyramid Water can be our best 'Natural Tonic'."

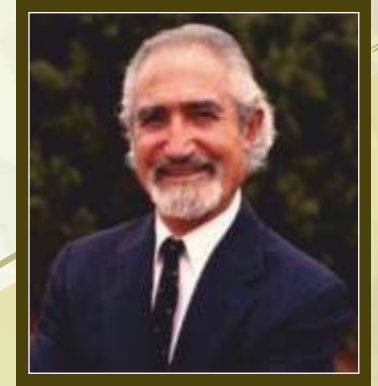

☼ Various advantages of Pyramid Water :

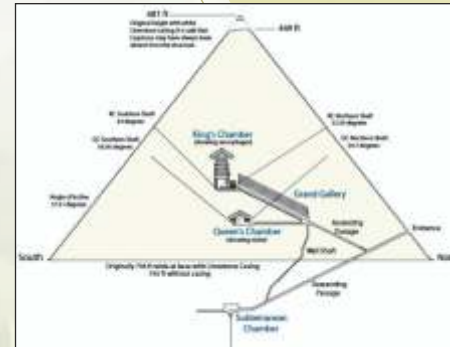

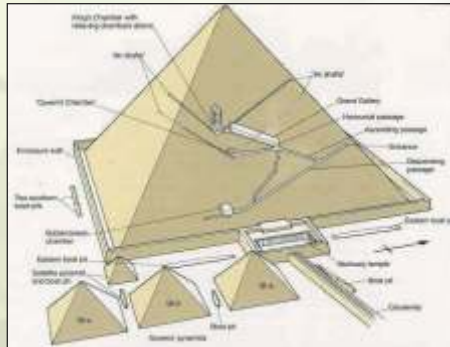

- ◆ Increases water concentration in cells
- ◆ Assists in removal of toxins and cleaning of organism
- ◆ Rejuvenates skin
- ◆ Increases vitality
- ◆ Speeds up healing processes and rehabilitation of organism
- ◆ Strengthens immune system
- ◆ Anti-stress effects
- ◆ Healing without interference with organism (self-healing)
- ◆ Helps heal skin, digestive disorders
- ◆ Essential for maintaining youthfulness

- "In the symbolism of the Great Pyramid, one clearly can see, how the great Master Architects veiled the mystery of the gaps, the pit, and the pilgrim on the path."
- "On the gallery there are two openings leading to the pit. One is smooth and you almost can slide down it obliquely to the pit. The other opening is vertical and drops off directly into the pit. If the initiate has real intuition, he will bypass these openings to the pit and continue his journey towards the Queen's or King's chamber."
- "The first passage toward the pit is the slow process of falling 'safely' into the pit, where death awaits. This is the case of people who are lead to the pit through materialistic and selfish life."
- "The second passage gives you a choice - you can go to the Queen's Chamber or go two feet further and vertically fall into the grotto or into the pit. This second passage to the pit is for those who in some way were able to escape the danger of falling into the first pit, and now they confront a greater test of intuition before they pass into the King's Chamber."

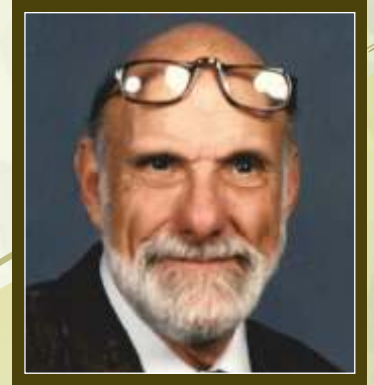

- ☉ “The falling ones are those who entered the path but later used the path for their selfish ends. Eventually they became conscious enemies of the path. The two gaps on the gallery towards the King's Chamber symbolize the two gaps in the constitution of man. One is between the Lower Mind and Spiritual Triad. The next one is between the Spiritual Triad and the Monad.”
- ☉ “Those who set forth to go to the Chamber of the King and be the King, the Self, must first learn how to walk on the path of virtues, avoid the pits of the path, and conquer the Dweller on the Threshold.”

[Source: "Atma Vidya – uncovering the mystery of the Self" by Torkom Saraydarian]

- "Pyramids are used to levitation (moving a body upward). Egyptian and Central American pyramids were anti-gravity structures for levitation."
- "The pyramid acted like a huge 'enlarger-type' condensing lens which concentrated the cosmic energy into the hollow resonant stone tower, which in turn was filled with the IR paramagnetic, organic breath of chanting priests."
- "Various shapes of stone structures indicate that they resonate to the paramagnetic forces of the cosmos and collect and concentrate the paramagnetic cosmic force above what would normally occur in unshaped soil and rocks."
- "The tower chamber of the Great Pyramid is constructed from pink granite, which is most paramagnetic. Each of the giant pink granite lenses (tower floors) act to focus the cosmic paramagnetism down (like light waves) into the King's Chamber. The outer limestone portion of the pyramid serves as a giant condenser lenses in a photographic enlarger-to diffuse and concentrate paramagnetic waves."

- "Dr. Philip Callagan developed smooth and corrugated round towers that respond to the paramagnetic-infrared aura of the human body. The arc of movement of his tower sensors in his house is 60-70 degrees, but in the King's Chamber it moved 200-300 degrees in a steady sweep to the human aura. The sensor was five to ten times as sensitive inside the chamber."
- "Pyramid shape is said to generate spin field from the apex."

[Source: <http://www.subtleenergies.com/ormus/tw/pyramids.htm>]

- "If the ancient Egyptians built the pyramids they would have had the knowledge of the most high, passed down by someone with understanding of how the universe works mathematically and geometrically because what they built is a replica of the earth, moon and sun geometry all in one structure."
- "They built a perfect machine possibly used to lower the earth's frequency down to a deep meditation state of higher consciousness using earth's pyramid vibration power and to induce a cosmic white light of higher frequency inside the body and mind which opens up the pineal gland and expands it to have clairvoyance."
- "The Great Pyramid of Egypt is tuned to the earth's magnetic frequency, putting out a low sound frequency that has an effect on people around it. In other words, the achievement of meditation in the sacred brain wave zone is attained much easier which is a very low sound frequency not easy to achieve on one's own."

- "At the very same time, the pyramid is receiving cosmic energy via the zero point energy field produced by the form of the structure. Pyramids have an effect on energy and produce a vortex where certain energy can flow."
- "The Great Pyramid is located at the center of the land mass of the earth. Some theorists believe that the great pyramid itself possessed its own cosmic energy force centers: the heart of the King's Chamber, its most vital and sacred points, where divine crystal energy was concentrated and especially powerful."

RAMTHA – JZ KNIGHT, U.S.A

- “ JZ Knight and her husband heard about 'Pyramid Power'- the belief that pyramids modelled on those in Egypt could sharpen razor blades and preserve food through mummification - and spent weekend constructing paper pyramids and placing various objects (cheese, dog food) inside. The following day, Knight grabbed one of the paper pyramids, placed it on her head, a voice heard 'I am Ramtha the Enlightened One. I have come to help you over the ditch', he said. ”

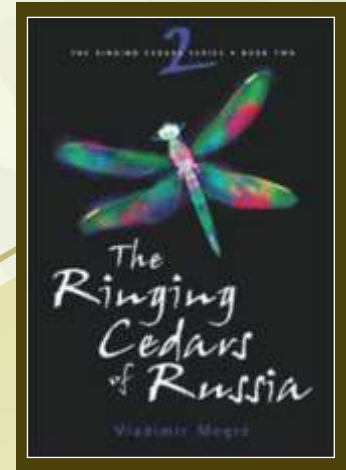

- “ The fiery forms well that is what they are - they were created as a form that could captivate energy in the center. It really represents God within. That which is termed the fiery forms or what you call the pyramids, entity when built as that which is termed a token to humanity an image to humanity, that which is termed, as it were indeed, a statue to humanity, a reminder to humanity to always look within for within, entity, does not one go within a great form as this and caught up within the majesty of what they are feeling? Certainly. ”

- " The purpose behind these pyramids themselves was an important part of the plan to protect knowledge of the Ancient Schools of Wisdom from extinction through the passing of time and a vicious attack of ignorance. "
- " The perfect polar alignment of the structure of the pyramid causes a force field to occur. Alignment to true north south picks up direct energy belts and fields that keep the planet in its orbital spin around the sun. The energy created from that centrifugal motion is a higher form of energy than electricity. Thus, the energy collected inside the pyramid is free of electromagnetism and polarity. "
- " Pyramids bring knowingness and ripen the mind. They amplify the healing process in the body and the thought processes of the dreamer sleeping inside of it and magnifies them into closer manifestation. "
- " In the Great Pyramid of Cheops, the King's Chamber is the most energetic part of the pyramid. The energy flows from the King's Chamber into the Queen's Chamber. It was love given to love. "

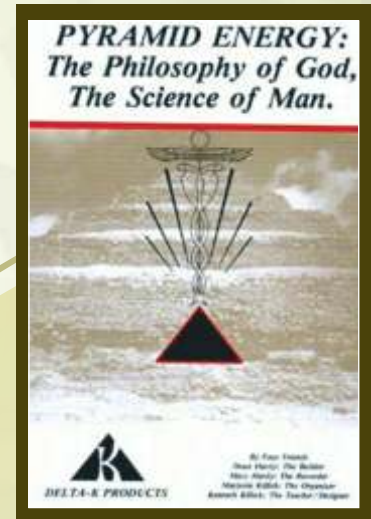

- ☉ “ Pyramids are wondrous things, one must linger as much time as possible, meditate under a pyramid for it ripens the mind. It is an amplifier. All that is that one absorbs from a pyramid is clarity. Clarity, entity, is to clarify the essence, and that is what the fiery form does. It is the knowledge of the essence. ”
- ☉ “ If you build a house in the science around that structure - Pyramid - and just below where you slumber, right below, have all the foods’ area to where the food is prepared and to the most powerful area (King’s Chamber) to where you slumber. And the degrees of that will encompass everything around it. And your food will not rot and spoil and your plants will grow wild, your water will be amplified, the degree of knowingness here will be opened. ”
- ☉ “ If you live in such a structure, you will find yourself remarkably preserved, master, and amplified thoughts. And your foodstuffs would become pure and energized. The very clothing upon your back would emanate light. All things are amplified that are put under the great fiery form. If one contemplates the opening of their unlimited self underneath pyramid, they will open kingdom of heaven. ”

- "In order to obtain an answer to a question using the Pyramids, those still living had to come to the Pyramid not individually, but in large numbers. They had to stand along each of the four sides and direct their physical and mental gaze upward."
- "Even today it is possible to do the same thing and obtain a desired answer. At the focal point of everyone's mental gaze an energy forms, an energy not unlike radiation. If a measuring device were placed at the top of the pyramid, right at the focal point, it would record the intensity of this energy."
- "And it is all so simple: in constructing pyramids, apart from the physical strength from the various pieces of equipment, they always used mental energy to reduce the force of gravitation. Whole groups of people with this kind of an ability would assist the builders. There are people alive today who are able to move small objects with their will."

DEAN AND MARY HARDY & MARJORIE AND KENNETH KILICK, U.S.A

- "The secret of the pyramids is that they make up the communication system that allows humanity the power of prayer. Without this system mankind could not communicate with the Father or the Angels."
- "The Great Pyramid Complex was built to balance the electromagnetic fields of this planet. Few people realize that the whole solar system could have been controlled from this complex, because the Earth could be controlled."
- "The King's Chamber in the Great Pyramid was designed to transmute individuals to higher planes."
- "In the pyramid, the energy in the King's Chamber would be similar to the energy patterns of the Step Pyramid. These chambers give a pulsing effect to the energy field. If an entity needed to transmute himself a great distance the energy field would have to be pulsing."

- Pyra Vastu is a powerful science of creating balance and harmony by core level corrections, with the help of pre-programmed Pyramid Yantra. It is based on the essential principles of subtle anatomy and the laws of the universe. Here we utilize our own hidden capabilities to achieve a better tomorrow.
- Pyra Vastu is a practical art to harmonize - mind, body and spirit with the environment, by just placing pre-programmed 'Pyramid Yantra' at appropriate locations; to achieve health, happiness and prosperity. Pyra Vastu is ideal for correcting Vastu and Feng shui defects without physical-alteration, shifting or breaking home, shop or factory.
- Pyra Vastu revolution is a new, dynamic and result-oriented system designed by Prof. Dr. Jiten Bhatt is not just the usage of pyramids in vastu. This is a totally new concept created for the first time in the world. It is a precise interactive permutation and combination of the vital force within and around us known as the "Pynergy".
- Pyra Vastu is the efficient management of this pynergy network to bring about a positive awareness in and around us. It helps to achieve better emotional, mental and physical state of wellness.

- Kirti Betai whose liver and kidney failure had seen him go through a near death experience in 1984 (hepatic coma), started his Research in Pyramid Energy Systems for Healing his own health condition.
- In two years 10,000 Pyramids were built of different sizes, shapes, colors and materials, as indicated by his Pendulum Dowsing to heal his liver, kidney, pancreas, heart and spine.
- Within two years Kirti Betai began to work 15 hours a day without any perception of fatigue or pain and without any drugs. Earlier he could not even sit for more than 30 minutes at a time.
- Simultaneously Ms. Bhagbhari Betai – Kirti Betai's wife got complete relief in her chronic asthma, colitis and depression.
- In the ten years thereafter over 30,000 patients of every conceivable diseases, disorders and ailments have been cured with total relief in symptoms and confirmation of internal change through medical investigative tests.
- Pyramid Pattern therefore represents the process of evolution – of consciousness – of life.

- "The three main Giza Pyramids were never built as burial chambers but as places of worship and spirituality, Inter-Galactic Portal from Planet Earth into the Universe... to be one with the Universe. The message from the Pyramid is that man should turn inward and find and re-connect to his BEING."
- "Divine beings got connected, I asked them what they want us to do. They said we were also light workers and that we should be light workers on Earth also. All those who meditated in the pyramid.. irrespective of caste, creed, age, nationality.. are all Light Workers."
- "Some of the pyramids were upside down, touching the tip of a regular pyramid and below that a pyramid pointing downwards. Three of them, one on top of the other ... when in doubt ... I was told that the upper one was to receive the cosmic energy flow, the second one was to store and the third one was to ground the harnessed energy."
- "The Queen's Chamber was used to energetically stabilize the Initiate after their return to their bodies in the sarcophagus, which is so full of heightened energies. The INITIATES return to their bodies with expanded consciousness and understanding of unity with Oneness."

- ☉ " The shape of a 4-sided pyramid symbolises the nature of our heart essence, and may be seen at the centre of traditional mandalas. "
- ☉ " A 4-sided pyramid shape has a square base (4 points) and an apex at its central place (1 point), elongated as height. These 5 aspects symbolize the 5 essential wisdoms of our inherent nature and the 5 natural elements, in perfect union with each other. "
- ☉ " This union state is essentially the union of physicality (5 elements that make up the form and formless aspects of the universe we live in) and spirituality (5 wisdoms as varying aspects of purified consciousness), operating at multi-layers of our psyche. "
- ☉ " The 5 wisdoms coupled with the 5 elements include All-Pervasive Wisdom at the centre coupled with element of Space and around it in the 4 directions; All accomplishing Wisdom coupled with the element of Wind, Wisdom of Discrimination coupled with the element of Fire, Mirror-like Wisdom coupled with the element of Water and Wisdom of Equality coupled with the element of Earth. "

- "It was the mid-1970s and Pyramid Power was a huge topic of interest all over the world. Using pyramids for everything from meditating under them, to sharpening razor blades."
- "People who visited the pyramid store near my home seemed to feel some sort of movement when they entered pyramid for meditation, as if they were being pushed or dragged along a highway. I often felt as if I were swirling, the same sort of feeling I used to get as a kid when I'd spin around in circles until I fell over, except Pyramid Power didn't make me sick. Meditating in the big pyramid was deeper, more intense and often bordered on hallucinatory. I loved that pyramid."
- "The owner of the shop and a group of fellow minded believers became convinced that there were pyramids on the bottom of the ocean. They theorized that they were remnants of the Atlantean civilization."
- "I've been to the Pyramids at Giza. I definitely felt some powerful energy, almost as if the sheer mass of the structure created its own reality and challenged the observer to explain its existence, something that defied all logic."

- "The pyramid itself is a very powerful structure and when used by bringing this structure over ourselves creates an intense portal of energy raising our vibrations."
- "The pyramid structure on its own has immense energy field in and around it, bringing in the energy in the form of a Y to the point of the pyramid and infusing the pyramid inside with perfectly balanced energy."
- "Pyramid energy is then channelled into the physical body inside the pyramid structure and the balance and healing takes place within this beautiful powerful energy."
- "When using the pyramid structure for healing and meditation with sacred geometry, the colour NEON BLUE must be used. This creates centeredness. The vibration of this colour NEON BLUE sends a message to the DNA of the human body to release old encoding systems and replace old genetic material with new codings and an instruction to regenerate."

- "By using simple hand-held pyramids to direct the pyramid healing power, practitioners seek to heal such ailments as general fatigue, depression and anxiety, tension, and even the common cold."
- "Concentrated cosmic energy is thought to increase the opening of the mind so meditation is more beneficial. The pyramid is also said to increase health and energy levels."
- "The purpose of the basic food groups, and the often referenced Food Pyramid provided by the USDA, is to give people an idea, at a glance, of how much of each type of food they should be consuming each day for optimum health."
- "The structure is also believed to enhance water, energize aluminum and preserve food. Some say a pyramid capped with copper or a crystal is even more powerful at concentrating energy and thus, more beneficial."
- "Pyramid healing is an alternative healing practice that is based on the concept that the shape of the pyramid provides a means of tapping into the healing energy that surrounds every living thing."

- “Pyramid structures are storehouses of energy as they are built to incline towards Earth’s magnetic field and are perfect receivers and transmitters of cosmos energy. Meditating under such a structure is called ‘Pyramid Meditation,’ and it gives the best results!”

APPENDIX

WHAT IS MEDITATION?

Anapanasati Meditation is very, very easy to practice. It is so simple. One should immediately begin with the practice of 'Anapanasati' .. in which one needs to be totally mindful of one's Natural Breath.

In ' **Pali** ' language,
' **Ana** ' means ' **In-Breath** '
' **Apana** ' means ' **Out-Breath** '
' **Sati** ' means ' **Be With** '

Sit in a comfortable posture (on the floor or on a chair)
Clasp your hands ... Cross your feet ... Close your eyes ...
And observe your normal, natural breath

Benefits of Meditation

- ▲ Diseases get healed speedily
- ▲ Memory-power becomes increased
- ▲ Wasteful habits die a natural death
- ▲ Mind stays in a peaceful and joyful state
- ▲ Work gets done with greater efficiency
- ▲ Sleep-time requirements get reduced
- ▲ Relationships become more qualitative
- ▲ Will-power gets tremendously increased
- ▲ Ability to discern right/wrong gets sharpened
- ▲ Purpose of life is thoroughly understood

THREE GRAND HAPPENINGS

Though the different stages in meditation cannot be clearly earmarked from one another with any definitive boundary line, for our own understanding, here are " Three Stages " or " Three Grand Happenings ".

The First Happening : When we are with the normal and natural flow of the BREATH, the mind becomes rather empty.

The Second Happening : When the mind is rather empty, a huge amount of cosmic energy gets flooded into the physical body.

The Third Happening : When sufficient amount of cosmic energy enters the physical body, the result is a reasonable amount of activation of the '*third-eye*'.

The culminating result in meditation is the activation of our '*inner senses*' or '*extra-sensory perception*' or the '*third-eye*'.

WHAT IS PYRAMID MEDITATION?

Meditation done inside or underneath a pyramid, is called "*Pyramid Meditation*".

Meditation done inside a Pyramid is " three times " more powerful than ordinary " no-pyramid " meditation.

Pyramids provide the most effective high-energy environment for all beginners of meditation.

Pyramids help to reduce the level of stress and tension in the physical body. Out-of-body experiences are easily obtained when meditation is done inside a pyramid.

The use of a **Pyramid** in **meditation** will accelerate the relaxation process, bringing feelings of calmness, well-being, and a more open and positive attitude.

Make your own Pyramids

We can calculate the dimensions of the pyramid with the following formula :

$$\text{Side of pyramid} = \text{Base} \times 0.951$$

$$\text{Height of pyramid} = \text{Base} \times 0.636$$

$$\text{Height of King's Chamber} = 1/3 \times \text{Height of pyramid}$$

BEING A VEGETARIAN

" Vegetarian food leaves a deep impression on our nature. If the whole world adopts vegetarianism, it can change the destiny of humankind. "

Albert Einstein

" The more we exert our loving kindness and protection towards all beings, the greater we will be in the world. "

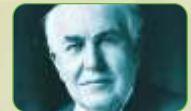

Ching Hai

" If slaughterhouses had glass walls, everyone would be vegetarian. "

Paul Mc Cartney

" Non-violence leads to the highest ethics, which is the goal of all evolution. Until we stop harming all other living beings, we are still savages. "

Thomas A. Edison

" Vegetarianism is a conscious effort .. a deliberate effort .. to get out of the heaviness that keeps you tethered to the, Earth, so that you, can fly .. so that the flight from the 'alone' to the 'Alone' becomes possible. "

Osho

BEING A VEGETARIAN

" Veganism is not about giving anything up or losing anything; it is about gaining the peace within yourself that comes from embracing non-violence and refusing to participate in the exploitation of the vulnerable. "

Gary L. Francione

" Animals do not 'give' their life to us, as the sugar-coated lie would have it. No, we take their lives. They struggle and fight to the last breath, just as we would do if we were in their place. "

John Robbins

"Could you look at an animal in the eyes and say to it .. 'My appetite is more important than your suffering ? ' "

Moby

" Life is as dear to a mute creature as it is to man. Just as one wants happiness and fears pain, just as one wants to live and not die, so do other creatures.

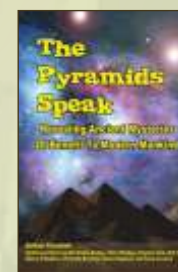

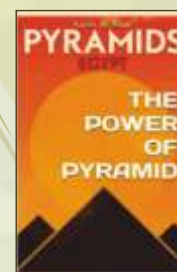

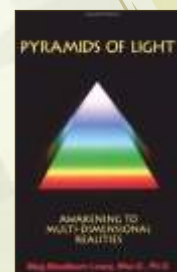

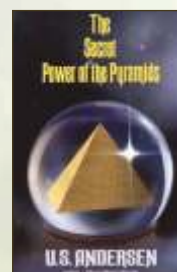

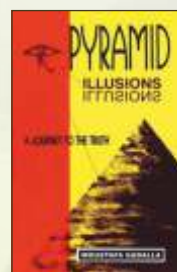

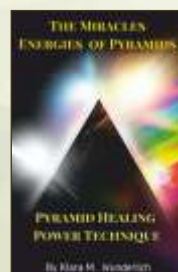

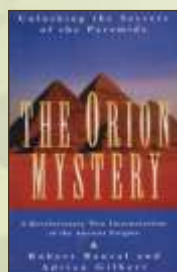

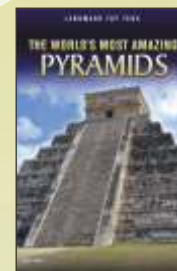

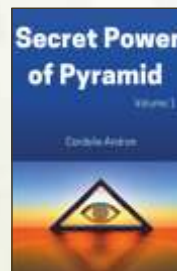

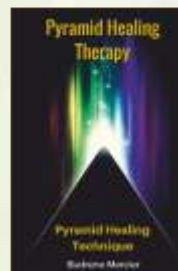

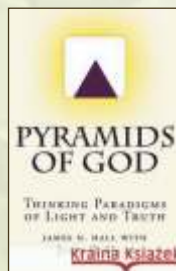

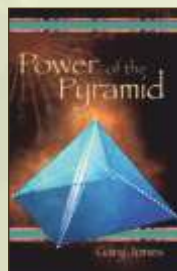

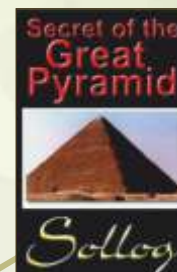

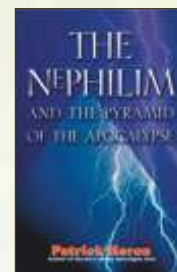

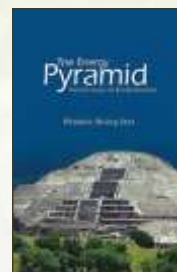

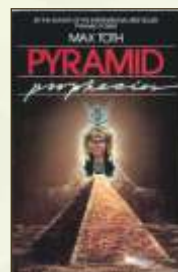

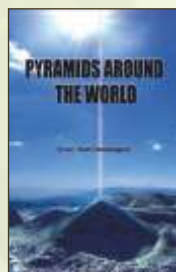

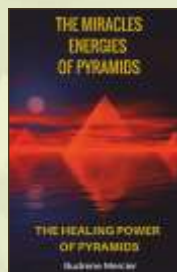

Dalai Lama

" People eat meat and think they will become strong as an ox, forgetting that the ox eats grass. "

Brahmarshi Pitamaha Patriji realized the power of meditation through his profound experiences early in his life and attained enlightenment in the Year 1979. Starting from a simple background as an executive in a Fertilizer Company in Andhra Pradesh, Patriji's mission has been to promote Meditation and Vegetarianism to people all over the world.

His approach has been completely scientific and secular without invoking any religious symbolism. Patriji has founded the **Pyramid Spiritual Societies Movement** in the Year 1990 with the objective of spreading the message of spiritual and vegetarian living to all humanity !
